

Quality policy

Approved by: CEO Niklas Uddholm
Date: 2023-06-09

Awave is an IT and web agency with broad technical expertise, offering a large clientele of varying sizes and industries, digital solutions in web, e-commerce, and apps with related peripherals.

Operations are carried out by:

- quickly introducing ourselves to the client's business and the need for digital solutions for maximum business benefit,
- encourage and develop deep expertise in mobile solutions and digital communication with our staff,
- continually innovating and being at the forefront of design and digital technology,
- offering cutting edge expertise in the market's largest open-source and license-based platforms,
- always be committed and accommodating to all clients and stakeholders,
- continuous quality controls according to our detailed delivery process,
- apply standardized, structured working methods for safe and error-free deliveries within the agreed delivery time.

This policy constitutes a commitment by management and employees to meet the binding requirements of clients and stakeholders. It also means constantly working to improve the management system to promote the best possible quality in all of our business related areas.
